## SERVICES OVERVIEW

Hope for Adoption offers a wide range of services to birth parents and adoptive parents. We have outlined the steps of adoption, our services and prices below to give you a better idea of the adoption process. Hopefully this document will also help answer a popular question of why adoption costs as set as they are. We strive to provide a high level of support and adoption education so please contact us and we would be happy to review these services with you in detail. We look forward to helping you along your adoption journey.

### **Step 1: Submit Application Packet**

To apply to Hope for Adoption, please submit an application packet. Application Packet should include the following: Application, Non-refundable Application Fee of \$250.00, Services Overview, 5 copies of your Family Profile, Orientation Checklist, and a signed and notarized copy of your approved Home Study.

Hope for Adoption will review your application packet and notify you of approval/disapproval within 30 days. If for any reason you are not approved as an adoptive family, your documents and/or family profiles will not be returned. If you have been approved as a prospective adoptive couple you will receive an approval letter and the next steps will occur:

### **Step 2: Presenting your Family Profile and Getting to Know You Document**

Your Family Profile will be shared with potential birth parents that match your adoption preferences noted on the application. We will present 3-6 family profiles at a time to the birth parents and will only notify you when your profile has been selected. Once selected you will receive specific information on the birth parents and baby/child (such as due date, social and medical history, gender, etc.). Once you have reviewed the birth parents and baby/child's information you will be asked if you desire to proceed with the adoption. If so, the next steps will occur. If not, your profile will be presented to upcoming birth mothers based on preferences. Hope for Adoption cannot guarantee if/when and how often your family profile will be presented.

### **Step 3: Accepting the Match**

Once you verbally accept the match, Hope for Adoption will prepare the paperwork and email them to you. To officially accept the match and move forward with the adoption Hope for Adoption will need the following signed and returned: Client Agreement and Fee Schedule. Hope for Adoption will also need all the supporting documents that are listed in the welcome packet. In addition a portion of the placement fee will need to be made depending on the adoption program as well as estimated legal/birth mother /medical expenses.

### **Step 4: Waiting on Placement**

Once the paperwork and fees have been taken care of there is usually a period of waiting until birth or placement. Prepare for travel and read as much information about parenting and adoption as possible during this time. During this time, your Caseworker will remain in contact with you and help assist you with arrangements to take placement.

### **Step 5: Placement and Finalization**

You will need to be present at birth or placement to take the baby and/or child. At the time of placement, Hope for Adoption will need the following documents: Agreement and Release for Placement, Acceptance of Placement, Legal at Risk Statement, Medical at Risk Statement, Interstate Compact, and Designation of Pediatrician. You will need to meet the social worker at our office to complete all the forms. You must remain in the state until your ICPC paperwork has cleared. Your attorney (recommended by HFA) will advise you on finalization. Most likely your adoption will be finalized in the state of Kansas in 30 to 60 days. You must return to the state and appear before the judge on the scheduled date.
